Phone – 8328830195
Email – dramitrajgupta@gmail.com
- **Affiliation:** Part of the Veterinary Clinical Complex (VCC) at RGSC-BHU.

Academic & Research Profile

- Prof. Gupta's profile appears on scholarly aggregator platforms with a substantial body of work.
- His research interests include veterinary medicine, clinical veterinary cases, animal health, toxicology, veterinary therapeutics, and related areas
- Some representative works / contributions (from public records):
 - Studies on fluorosis in cattle and ameliorative effects of herbal preparations (e.g. using *Tamarindus indica*).
 - Clinical case reports: e.g. therapeutic management of demodicosis in puppies, management of hepatic/cholangitis in dogs, studies on urinary hydroxyproline as biomarker for osteofluorosis in bovines.
 - Work in poultry / animal nutrition, diagnostic studies, as well as contributions to clinical case compilations for teaching/training (e.g. "Compendium of Clinical Cases 2023–24").

Service, Leadership & Responsibilities

- As Dean of FVAS (RGSC-BHU), Prof. Gupta leads and oversees academic and administrative functions of the Faculty of Veterinary & Animal Sciences.
- As Professor in-charge of the VCC — he is responsible for clinical services, teaching, supervision of veterinary clinical work under RGSC-BHU.
- In recent institutional news (Aug 2025), Prof. Gupta congratulated a team for achieving the "fourth birth of surrogate Sahiwal calf through embryo transfer and sex-sorted

method” under RGSC — reflecting his active role in cutting-edge livestock/animal-reproduction research at BHU.

Additional/ Miscellaneous Info

- Prof. Gupta appears active on institutional communication channels (e.g. as Dean on official faculty handles) indicating role in outreach, faculty coordination and academic leadership.
- As Dean, he likely oversees curriculum, vet-clinical education, livestock-health programmes, and may contribute to institution-level decisions at RGSC-BHU’s Faculty of Veterinary & Animal Sciences.
